

Lean Manufacturing Operative

Sector	Engineering
Who is it for?	New recruits and existing staff
Start date	May and September
Level	2
Duration	12-18 months plus end-point assessment
End-point assessment	Ongoing assessment and final grading through end-point assessment
Qualification	Pearson BTEC Level 2 Diploma in Manufacturing
Delivery model	Weekly college session

This standard aims to give the Apprentice the knowledge, skills and behaviours to be able to carry out their work safely and meet the quality standards demanded in a fast paced and efficient processing environment, and develop into a multi-skilled operator through process ownership.

Some of the topics and themes covered are health and safety, production, lean manufacturing operations, quality control and communication.

We offer three pathways: Production/Assembly, Inspection/Quality and Production.

Typical job roles include:

Manufacturing production operative

Manufacturing process/finishing operative

Manufacturing inspection/quality assurance operative

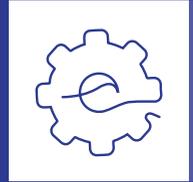

Manufacturing assembly operative

Team member production

Manufacturing production operative

Manufacturing inspector

What your Apprentice will learn

Apprentices develop knowledge, skills and behaviours to be able to work effectively in their job role.

These form the Apprenticeship standard that has been developed and agreed with employers.

The knowledge, skills and behaviours that your Apprentice will learn include:

Knowledge

Health and safety

Environmental factors

Lean manufacturing operations

Continuous improvement

Quality control

Skills

Identifying risks in the workplace

Demonstrating process documentation control

Selecting and using appropriate tools, equipment and materials

Demonstrating their ability to identify and resolve problems

Generating ideas and contributing to process improvement activities individually or as part of a team

Behaviours

Respect

Punctuality, reliability and responsibility

Responsiveness

Attention to detail

Independence

Efficiency
